

Power BI Dashboard

IBM HR Analytics Employee Attrition and Performance

- ❖ This data set is well-known in the People Analytics world. This data set has 1470 rows and 35 columns. The data set contains data like ,
 - age, gender, job satisfaction, environment satisfaction, education field, job role, income, overtime, percentage salary hike, tenure, training time, years in current role, relationship status, etc.
- ❖ Originally, the data set was published on IBM's website but has since been removed. But I have downloaded this data set from Kaggle with this following link.
 - <https://www.kaggle.com/wrucebaynebot/hr-dataset?select=HR+Dataset.xlsx>
